These features are not taught or suggested given the closest prior art of. These features are found in each of the independent claims 2 and 7. The closest prior art is Roberts which is a system to buy lottery tickets at a POS and which tracks the tickets by way of identifiers. And although known lottery systems such as the German lottery allow for purchase of less than full portions of a lottery ticket, the art does not suggest offering a lottery ticket portion based upon the consumer's change due.
